

**“SPE 2005 for a VAM success”**

Last October, VAM PTS participated as an exhibitor to the annual Society of Petroleum Engineers Technical Conference and Exhibition held this year in Dallas. VAM PTS, V&M and V&M star companies cooperated on this booth to offer a wide range of OCTG Tubular products and services.

The focus for VAM PTS concerned the following items:

- . Our Dope-free concept called CLEANWELL
- . Our Fatigue Enhanced connection named VAM TOP FE for RISER and fatigue applications
- . Our gas tight Expandable Tubular connection named VAM ET
- . Our standard T&C VAM TOP product lines offering up to 100% PBYS compression rating
- . Our standard Flush and Semi-Flush connections VAM FJL and VAM SLIJ II

In case you missed the opportunity to visit us at this exhibit, do not hesitate to call us on these issues!

And **thank-you** to all the customers and end-users we were happy to receive.
