

20th Anniversary Celebration of VAM PTS Company

We celebrated the 20th Anniversary of VAM PTS at the Houston Museum of Natural Science on February 10, 2005. VAM PTS Company was established in 1984 as a joint venture of the V&M Group and Sumitomo Group.

During the evening, some overseas rituals were experienced by our local colleagues. We drank Japanese Sake with “Kagamibiraki” ceremony wishing everyone good health and happiness. We then toasted good wishes with French Champagne.

Guests at the event enjoyed celebrating old friendships between the two groups and with the 16 employees that have been with VAM PTS twenty plus years. The telling of tales from those that were with VAM at its birth caused many warm feelings and many more toasts.

All of us wish the best to VAM PTS and VAM worldwide with the main objective to serve our customers in the best possible way.

We are very excited about attending the next celebration.
