

Integrated Management System Policy

Vallourec Star will be the quality leader of seamless steel tubular products and an asset to our communities and stakeholders. The integration of producing quality tubular products, maintaining the health and safety of our workforce and preserving the environment are not just priorities, but core values. While supporting these values and incorporating the fundamental components of the Vallourec Management System (VMS), Vallourec Star shall:

- Provide products and services that meet or exceed the requirements and expectations of our customers.
- Comply with all applicable laws, regulations, permits, industry standards and other requirements that relate to quality, environmental aspects and occupational health and safety.
- Commit to pollution prevention, waste and energy reduction, property conservation, and environmental protection.
- Commit to prevention of occupational injury and illness by managing risks in the workplace and promoting a culture in which team members work in a safe and healthy manner.
- Commit to continually improve the performance and effectiveness of the Integrated Management System.

This policy provides a framework for setting and reviewing objectives, targets and goals in each of the areas of quality, environmental, energy and health & safety.
